Shell Gasohol 95's quality guarantee

It all starts with the selection of ethanol and the raw materials through Shell's stringent standards of product quality control process. Moreover, tankers as well as, underground tanks and dispensers of service stations are thoroughly and continuously checked to ensure that the quality of Shell Gasohol 95 is maintained throughout the distribution system.

Over 25 years, Shell Gasohol 95 has gained credibility from millions of motorists in many countries such as USA, Brazil, and Sweden. Shell is also a leading retailer of Gasohol in the world, which shows rising in demand for Gasohol in response to the global need for saving and environment conservations. Today, Shell is confident to guarantee the quality of every drop of Shell Gasohol 95 by offering motorists free repair at any service center authorized by respective automobile or motorcycle makers should their vehicles experience problems resulting from the use of Shell Gasohol 95. This guarantee is intended for giving motorists a peace of mind wherever they go.

Motorists can now fill their tank with Shell Gasohol 95 with confidence given these different propositions.

What's Shell Gasohol 95?

Shell Gasohol 95 is the petrol resulting from the blend of lead-free- gasoline with 10% of ethanol or ethyl-alcohol, which is 99.5% pure alcohol, as a substitute for MTBE (Methyl Tertiary Butyl Ether).

Shell Gasohol 95 contains a special formula that helps clean the fuel injection system making it possible for complete combustion. As a result, it keeps the engine clean and maintains top engine performance.
